How to Use
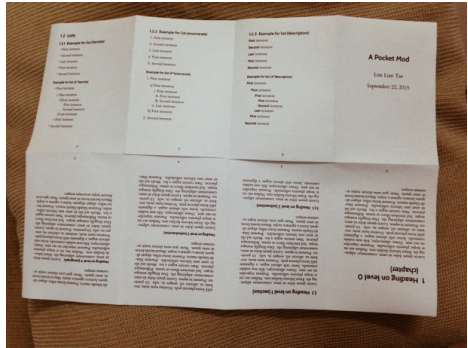

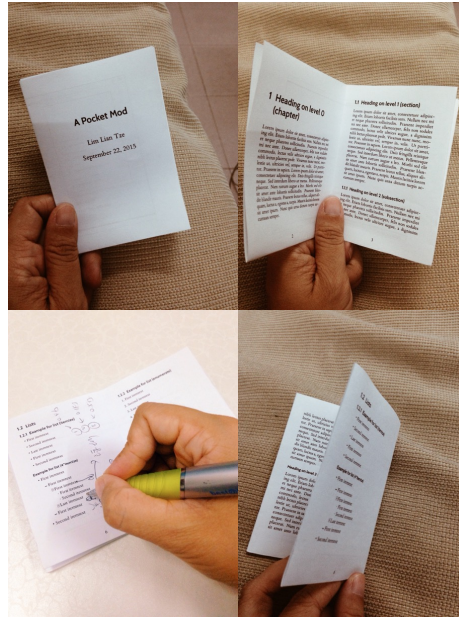

- Just add \usepackage{pocketmod}
- Rearranges 8 pages on a sheet of paper, folded into a booklet
- Uses only a single side – ideal for recycling used paper!

How to Cut and Fold

- http://www.pocketmod.com
- http://www.youtube.com/watch?v=IAb31rIeGZo
- \usepackage[showmarks]{pocketmod} for guiding fold marks

## Some Tips

- Try to keep your contents to 8 pages or less ;-)
- Use large fonts! They'll be scaled to $\frac{1}{8}$ the size.
  - extsizes package
  - KOMA-script classes allow arbitrary body font size
  - Liberal uses of \Large, \huge etc

Creating PocketMods with LaTeX
